## SUMMARY

---

I am a dedicated Software Engineering student at LPU, with a strong passion for developing innovative solutions with a deep interest in AI & ML. My coursework and projects have equipped me with a solid foundation in data structures & algorithms, Web development, and software design. My goal is to leverage my skills and knowledge to contribute to cutting-edge projects, where I can further enhance my abilities and make a meaningful impact.

## EDUCATION

---

### LOVELY PROFESSIONAL UNIVERSITY

Jalndhar, India

Bachelors in Technology in Computer Science

Expected Aug 2027

Relevant Coursework: OOP, Data Structures, Business, Web Development and Design, Software Development, DBMS

## PROJECTS

---

### Portfolio Website

- Developed a responsive and visually appealing portfolio website using HTML, Tailwind CSS, and React. Integrated Email.js for contact form functionality, showcasing skills in front-end development, responsive design, and API integration.

Link to site:

### Weather Forecast Website

- Developed an interactive and user-friendly weather application using Javascript, and OpenWeatherMap API. With this app, you can search for any city and get real-time weather updates.

### Netflix Clone

- Developed a fully responsive Netflix clone using HTML and vanilla CSS. This project replicates the core functionalities of Netflix, featuring a sleek, user-friendly interface with a dynamic layout. The design ensures seamless viewing across various devices, incorporating a content grid, navigation bar, and adaptive elements to enhance the user experience.

## EXPERIENCE

---

### SOFTWARE ENGINEERING FELLOWSHIP @ HEADSTARTER AI

Jul 2024 – Present

- I'm currently participating in a fellowship with Headstarter AI, where I will be building 5 AI projects in 5 weeks. For my final project, I aim to achieve one of the following goals: 1000 people on the waitlist, 1000 accounts created, or \$1000 in revenue. In this fellowship, I will learn React.js, Next.js, MUI, Firebase, AI, vector databases, AWS EC2, and AWS Lambda. This experience is not only enhancing my technical expertise but also providing valuable skills in teamwork, collaboration, and project management.

## INTERN AT @TECH-A-INTERN

Jul 2024 – Present

- During my Internship at Tech-A-Intern, I had the opportunity to deepen my knowledge and skills in web development. I learned HTML, CSS, JavaScript, React, Material-UI (MUI), and Next.js. This experience has been instrumental in enhancing my technical abilities and understanding of modern web technologies.

## SKILLS & CERTIFICATIONS

---

**Technical Skills:** HTML, CSS, JavaScript, React.js, Tailwind CSS , Responsive Web Design, SQL, MySQL, Api Integration  
Flutter, Software Design Patterns, C++, C, Python

**Languages:** Fluent in English, Hindi

**Certifications & Training:** Frontend Web Development with JavaScript and ReactJS 2024 (Google Developer Students Club),  
Responsive Web Design (FreeCodeCamp) , Backend Web Development using NodeJS and Express (Google Developer Students Club)
